

## Class 9

### Buscando productos en las secciones y pasillos del supermercado en inglés

#### SCRIPT

**Mariana:** Hey there, shopper! Here we are at the grocery store, also known as the supermarket, and we are going to pick up some groceries!

The first thing I'm going to do is grab a shopping cart or trolley so I can put all the items I want to purchase inside and I don't have to carry them around. If I was going to buy fewer items, I would grab a shopping basket instead.

Now that I have my shopping cart, let's head over to the produce section. This is where you can find fresh fruits and vegetables. For example, here, on the counter, you can find some juicy oranges!

Over here, we have the dairy aisle. This is where you'll find all types of milk right there on the shelf and you can even find dairy-free products such as soy milk.

Next, let's go to the bakery. Here, you can find different types of bread. You might want to get a loaf of bread for sandwiches or a freshly baked bagel for breakfast!

Over there, we have the meat department or the butcher, where you can find various types of meat, like pork and beef.

Almost there! Last thing on the list! Here, in the household products aisle, you can find cleaning products such as dishwashing liquid.

Finally, we've reached the checkout area. This is where you pay for your items in cash or by card at the cash register. Put everything in reusable shopping bags and you're ready to go!

## CLASS 9: ACTIVITY

### A. Instructions:

Complete the sentences using adverbs of place **"here"** and **"there"** and definite article **"the"**.

1. Here we are at \_\_\_ grocery store, also known as \_\_\_ supermarket, and we are going to pick up some groceries!
