In this roleplay the teacher and a guest will talk about shopping as they apply and use the language goals learned in the previous 5 modules.

Jess: Hi Ravee. How're doing? All good?

Ravee: Hey there, Jess! I'm great! How nice to see you **here**.

Jess: You too! What a coincidence… Can I ask you a favor? I'm lost **here**. I need to buy a gift for my mother, **and** I wanted to buy a dress, **but** I don't know if I should take **the** green one **or the** blue one. She likes green **and** blue!

Ravee: Oh... Both are beautiful! I like **the** green one, **but** I think for your mother **the** blue one is better. It matches her eyes.

Jess: You are right. I think she will love **the** blue dress. Thank you for your help.

Ravee: No problem! What are you doing after you get **the** dress?

Jess: I was thinking about going to **the** new restaurant they opened downtown. Would you like to go with me?

Ravee: Great idea! I **always** go to the same restaurants. It's good to change **sometimes**.

Jess: I think we can walk **there**. **It's** a nice day, sunny **and** warm. We have to take advantage of this weather. **It's always raining and windy here**. **How often** do we have the chance to enjoy the sun?

Ravee: **Never**! hahaha **It's hardly ever sunny**. Let's go!!!!
