Answer key

I live in Colombia. Many people think Colombia is always **hot**, but it's not like that. I live in the capital, Bogotá. It is located at an average altitude of 2,640 meters above sea level. Because of that, **it's** normally very **cold** here, especially at night. For me, it's a great city to live in since I LOVE cold weather. **It's warm** sometimes, but usually, **it's cloudy** and **rainy**. There are other cities in Colombia where **it's sunny** and **hot**, like Cartagena. Or **warm** and **windy**, like San Andrés. It's great living here because you can find all kinds of weather.
